# HAND-HELD METAL DETECTOR PSM-1

## Hand-held metal detector

### PRODUCT DESCRIPTION

The PSM-01 Hand-Held Metal Detector is characterized by an advanced detection degree for small metal objects. Based on the wireless charging technology, the PSM-01 is considered a high-end product. Its innovative design undoubtedly makes it a very pleasant product.

The large and uniform detection area enables a very high detection sensitivity and a simple and practical operation.

The PSM-01 carries out in-depth checks on people, luggages, mail, parcels, etc., thus allowing the exact location of the suspect metal object whose detection is signaled by an optical / acoustic warning.

No sensitivity adjustments are required.

The acoustic / optical alarm and vibration alarm signal are activated simply by pressing a button.

The PSM-01 is capable of detecting all types of metals.

Fast and reliable wireless battery charger support, no need of batteries removal.
